

## Het Oudgriekse alfabet

| Naam van de letter | Kleine letter        | Hoofdletter |
|--------------------|----------------------|-------------|
| Alfa               | $\alpha$             | A           |
| Beta               | $\beta$              | B           |
| Gamma              | $\gamma$             | $\Gamma$    |
| Delta              | $\delta$             | $\Delta$    |
| Epsilon            | $\epsilon$           | E           |
| Zeta               | $\zeta$              | Z           |
| Eta                | $\eta$               | H           |
| Theta              | $\theta$             | $\Theta$    |
| Iota               | $\iota$              | I           |
| Kappa              | $\kappa$             | K           |
| Lambda             | $\lambda$            | $\Lambda$   |
| Mu                 | $\mu$                | M           |
| Nu                 | $\nu$                | N           |
| Ksi/xi             | $\xi$                | $\Xi$       |
| Omikron            | $\omicron$           | O           |
| Phi                | $\pi$                | $\Pi$       |
| Rho                | $\rho$               | P           |
| Sigma              | $\sigma / \varsigma$ | $\Sigma$    |
| Tau                | $\tau$               | T           |
| Upsilon            | $\upsilon$           | $\Upsilon$  |
| Phi/fi             | $\phi$               | $\Phi$      |
| Chi                | $\chi$               | X           |
| Psi                | $\psi$               | $\Psi$      |
| Omega              | $\omega$             | $\Omega$    |
